Sets the Standard

LeakDAS® version 4

Built from the ground up using the very latest Microsoft .NET technology, the next generation of LeakDAS takes you where no one else can.

FEATURES:

- New Powerful SmartBrowse™ Group, Count and Sort Features
- Fast Route Builder — Copy/Paste Tags into Routes
- Fully Automated Schedule w/ Manual Override Ability
- More Robust Exporting and Reporting Tools
- Multiple Screens/Multiple Tasks
- Significant Performance Improvements
- New Tabbed Browser Style Interface or Classic MDI
- Crystal Reports 2008
- Integrated Support Tools
- Optional SMART LDAR Module
- OneClick™ Deployment
- Automated Install and Update from Web, CD, or Network Share
- ...too many more to list

The screenshot displays the LeakDAS software interface with several key components:

- Component List Table:** A table with columns for UnitDescription, ComponentClass, ChemicalState, and others. It lists various components like pumps and valves.
- LeakDAS Action Items:** A section titled "LeakDAS Action Items" with a "Components w/Overdue Insp" link. It lists statistics such as "Initial Repair Attempts Over", "Total Work Requests Open", and "Inspections Due By 12/31/21".
- SmartScore Trend Chart:** A line graph titled "SmartScore Trend" showing a score over time. The Y-axis is logarithmic, ranging from 1 to 10,000. The X-axis shows dates from 7/26/2007 to 8/27/2007. The chart shows a peak in the score followed by a decline.
- Component Information Panel:** A panel on the right showing details for a specific component, including its location, drawing, and status.
